## Associating an Existing Food Business with a User Account

Once you have successfully logged into the Iowa Online Food Licensing System, the next step is to associate active food or lodging businesses with your user account. The Business Code that you need to associate an existing business with your user account is located on the food or hotel license renewal application that you receive from the regulatory agency.

Here is an example of the top portion of the food license renewal application:

- The "Business Code" on the renewal must be entered in the space provided on the "Iowa Online Food Licensing" home screen.
- Enter the Business Code from the renewal form here and then select "Add."
- Once you add a Business Code, the food business will appear as a blue panel on the home screen.
- If you are associated with more than one food business, you must enter the Business Code from other businesses and select "Add."
- Each valid Business Code added will add another business to the home screen.

Once a user has associated one or more food businesses with the user account, it is important that the business information is reviewed and updated as necessary to reflect the current operation. There are two areas where information is displayed: "Business Information" and "License Information." Both of these areas contain operational information about each food business.

- To access the "Business Information" screen, click the paper and pencil icon.
- If you have multiple businesses, selecting "Show Available for Renewal" will filter out businesses that do not have licenses that are available for renewal at this time.
- To view "License Information," click the ">" icon.
